A premium quality thermal insulation cloth with the ability to withstand temperatures over 1200°C and performs in the most demanding environments.

Commonly used to make pillows and welding blankets, heat shields and curtains, and can be sewn to suit your requirements.

Irish Refrasil derives its' name from the green coating used. This grade is pre-shrunk, high purity silica making it an ideal option for extreme temperature service that requires insulation with dimensional integrity.

- Excellent Dielectric Strength
- Fire Resistant
- Good Chemical Resistance
- Low Halogen Content
- Low Thermal Conductivity
- Easy to Work With

Key Specifications	
Max. Temperature	1,260°C
Melting Point	1,650°C
Silica Content	96% Minimum
Colour	Green
Fibre Diameters	8-10 Micron

Available Sizes		
Grade	C2221-48	C2221-96
Thickness	0.71mm	1.3mm
Weight	0.678 kg/m <sup>2</sup>	1.356 kg/m <sup>2</sup>
Width	840mm	

Available by the Metre.

For custom made insulation parts, welding blankets, expansion joints, bellows and more; please contact your local Associated Gaskets branch.
