A general-purpose grade of corrosion protection tape designed to protect pipe and fittings from corrosion over a long service life.

Made from a polyester fabric which is thoroughly impregnated and saturated with petrolatum, this tape provides long lasting protection against rust and corrosion.

Our Petro Tape is manufactured in accordance with AWWA C217-04 and is available in a selection of widths.

This quality tape is non-hardening and is designed to provide protection across its' 30+ year service life.

Petro Tape is widely used for the protection of steel and other surfaces in underground applications such as on cables, pipelines, valves and marine piles.

Key Specifications	
Temperature	-10°C to +50°C
Colour	Beige
Tear Strength (Length)	35.8 N
Tear Strength (Width)	32.9 N
Break Strength (Length)	186 N
Break Strength (Width)	58.2 N
Thickness	1.4mm (avg.)
Water Vapour Transmission	0.12/ng/Pa s m ²
Holiday Testing	10kV (ASTM D149)

Standard Sizes	
Standard Widths:	50mm, 75mm, 100mm, 150mm, 200mm, 300mm
Roll Length:	10 Metres
