syd@agaus.com.au

A specially produced grade of high temperature insulation which has been treated with an abrasion resistant coating.

Because of this enhanced abrasion resistance, this grade of cloth is widely used for applications where the material is likely to encounter dragging, scraping, tearing or snagging.

Commonly used in the fabrication of pillows and welding blankets, as well as heat shields and curtains. AR100 Series Refrasil withstands very high temperatures and is easily handled.

- Excellent Dielectric Strength
- Fire Resistant
- Good Chemical Resistance
- Low Halogen Content
- Low Thermal Conductivity
- Easy to Work With

Key Specifications	
Max. Temperature	982°C
Melting Point	1,650°C
Silica Content	96% Minimum
AR Coating	0.05mm Thick
Fibre Diameters	8-10 Micron

Available Sizes		
Grade	AR 100-48	AR 100-96
Thickness	0.81mm	1.32mm
Weight	0.678 kg/m ²	1.22 kg/m ²
Width	914mm	

Available by the Metre.

For custom made insulation parts, welding blankets, expansion joints, bellows and more; please contact your local Associated Gaskets branch.
