

Weicon Corro-Protection

**Surface
& Corrosion
Protection**

**Cleaning &
Degreasing**

**Plastic Metal
Epoxy Systems**

**Lubricating &
Multi-Functional**

Weicon Corro-Protection Spray is a high quality technical spray designed to provide long-lasting protection and preservation of tools, precision parts and all kinds of metal components.

This spray creates a dry, waxy, protective film on the sprayed item (that can be easily removed when necessary using Weicon Cleaner S).

It is utilised in environments where temperatures are expected to fall between -20°C and 50°C and effectively protects against the formation of rust or corrosion over its long service life.

Key Specifications	
Temperature	-20°C to +80°C
Colour	Transparent
Smell	Solvent

Standard Sizes	
400ml Aerosol	10 Litre Container
5 Litre Container	28 Litre Container
