

Weicon Easy-Mix N 5000 Epoxy Adhesive

Dispensing Equipment & Accessories

Plastic Metal

Epoxy Adhesives

Cleaners & Degreasers

A self-levelling epoxy adhesive that forms bonds on a wide range of materials that exhibit very high degrees of adhesive force. This two-part adhesive is liquid in viscosity meaning it can penetrate and fill gaps much easier than other epoxy adhesives which are generally viscous or paste consistency.

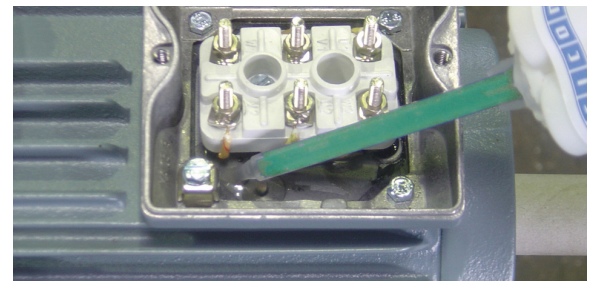

Easy-Mix N 5000 boasts suitability for bonding to the largest range of materials in Weicon's epoxy adhesive range and can be used to bond metals, ceramics, glass, stone, wood and many plastics.

Weicon Easy-Mix N 5000 is also colourless (glass clear), making it a superior choice for connections where appearances are important.

Fully cured, N 5000 can resist temperatures in the range of -50°C to +80°C and displays high tensile strength which has seen it widely used for a range of assembly, production and repair applications.

Key Specifications	
Colour	Transparent
Density	1.07 g/cm ³
Viscosity	5,000 mPas
Pot Life	20 Minutes
35% Cure	60 Minutes
Full Cure	48 Hours
Shore Hardness	65 Shore D
Maximum Gap Coverage	2mm
Temperature Resistance	-50°C to +80°C
Avg. Tensile Shear Strength	21 N/mm ² on Sand Blasted Steel
Cartridge Size	50ml

Suggested Accessories	
Dispenser	Extra Nozzles
Weicon D50	Quadro
