

Weicon Mould Release Agent

Solvents & Release Agents

Resins & Compounds

Plastic Metal Epoxy Systems

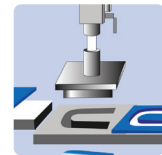

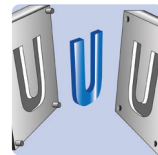

Lubricating & Multi-Functional

A release agent that prevents adhesion to plastics, moulds, metals and tools.

This high quality product is used in plastic processing, injection, compression and vacuum moulding applications.

Mould Release Agent is made from natural products and contains no silicone.

It is an extremely effective sliding and release agent that prevents adhesion to plastics, metal, moulds and various types of tools.

Key Specifications
