Weicon Plast-o-Seal is a permanently plastic universal sealant.

This quality product can be used in two different ways; as a sealant for closely mated flanges and pipe connections and/or as an aid with fibre, cork or other types of material gaskets.

This non-hardening sealant helps compensate for damage to the flange face and allows for accurate assembly of connections with low tolerances.

Manufactured in Germany, Weicon Plast-o-Seal also eradicates the need to overtighten flanges and is non-sag so it can be applied to vertically aligned assemblies.

Plast-o-Seal is available in a variety of sizes, exhibits good chemical resistance and will withstand up to 200°C continuous.

### Key Specifications

|                              |                          |
|------------------------------|--------------------------|
| Colour                       | Fluorescent Blue         |
| Viscosity at 25°C Brookfield | 950,000 - 1,650,000 mPas |
| Basis                        | Polyester Resin          |
| Temp. Resistance Continuous  | -50°C to +200°C          |
| Temp. Resistance Short-Term  | +250°C                   |

### Standard Sizes

- 90gm Squeeze Tubes
- 120gm Brush-Top Containers
- 230gm Press-Packs
- 300gm Cartridges
