

Weicon Stainless Steel Repair Stick

Repair Stick Stainless Steel is designed especially for the non-corroding repair and reconditioning of stainless steel and other rust-proof metals.

Weicon Repair Stick Stainless Steel exhibits excellent compatibility with a wide range of metals (including brass, cast iron, aluminium and, of course, stainless steel) and is also used on hard plastics, wood, fibre reinforced materials, glass, ceramics, stone and many plastics.

Made in Germany, our Stainless Repair Putty has NSF approval for food grade and potable water applications and is often used for repairs to:

- Tanks and vessels
- Filling machines and packing machines
- Pipes and tubes
- Pumps and pump housings
