3M Adhesive and Cleaner Sprays

AG is proud to offer a full range of 3M Adhesive Sprays, Solvents and Cleaners in easy to use aerosol form. This versatile range of products are used in a wide variety of both commercial and industrial applications due to their consistent performance, high quality and exceptional value for money. In keeping with our commitment to service, AG keeps comprehensive stock of these aerosols and are happy to offer them by the can or in standard box quantity.

The products featured on this page represent some of our most commonly requested grades of 3M adhesive spray and cleaners. These featured products are complimented by numerous others which may be more suited to specific applications. For more information on these, or any other product in AG's ever expanding range, please don't hesitate to contact your local AG branch.

3M™ Super 77™ Multipurpose Spray Adhesive

3M's Super 77 adhesive is a versatile, fast-drying adhesive that bonds to a wide range of materials and substrates. The combination of fast, aggressive tack, low soak-in rates and long bonding range makes Super 77 ideal for all manner of projects in domestic, commercial and industrial applications. Super 77 is most commonly requested in standard 467gm aerosols and is nearly clear in colour. It is a FDA listed product offering a high coverage that is often used to attach fibreglass insulation or wiring diagrams and labels, to bond thin film, foils and fabrics and in the construction and bonding of various single and multi-layered gaskets.

3M™ Hi-Strength 90 Spray Adhesive

3M's Hi-Strength adhesive spray is a strong and fast-drying adhesive ideal for bonding a wide variety of materials. High-Strength 90 can withstand high temperatures which makes it suitable for use with metals likely to be housed in demanding environments. It has an adjustable spray pattern which can be customised for individual applications. #90 Adhesive is a FDA listed product offering a high coverage that is often used to adhere plastic signing to wood and to bond kick plates to office desks along with myriad other applications. The High-Strength 90 is available as a standard 467gm aerosol and is translucent in appearance.

3M™ Adhesive Cleaner & Solvent 700

3M 700 Adhesive Cleaner and Solvent is a versatile general purpose solvent in easy to use aerosol form. This product is ideal for cleaning heavily contaminated surfaces prior to applying bonding agents and can also be used for removal of excess adhesive residue or dismantling previously bonded items. #700 Cleaner and Solvent has a pleasant odour and is clear in colour. It is especially suited to the clean up and undoing of bonds achieved with 3M Scotch Branch Aerosols (two of which are featured above). It is available in 350gm aerosols.

3M™ HIPA Clean 300

3M HIPA Clean 300 is an IPA spray designed to clean surfaces prior to the application of a 3M tape or adhesive. Available in easy to use aerosol form, HIPA Clean 300 is easy to apply and will quickly and effectively clean grease, dirt and oil from a variety of surfaces and substrates. Based on Isopropyl Alcohol, HIPA Clean 300 will dry quickly whilst leaving no residue. This safe and easy to use product is available in 300gm aerosols that come with a useful extension tube to allow application of this solvent to hard to reach places.
