

Lytherm Ceramic Fibre Paper

Flexible Insulation Materials

Rigid Insulation Boards

Thermal Insulation Tapes

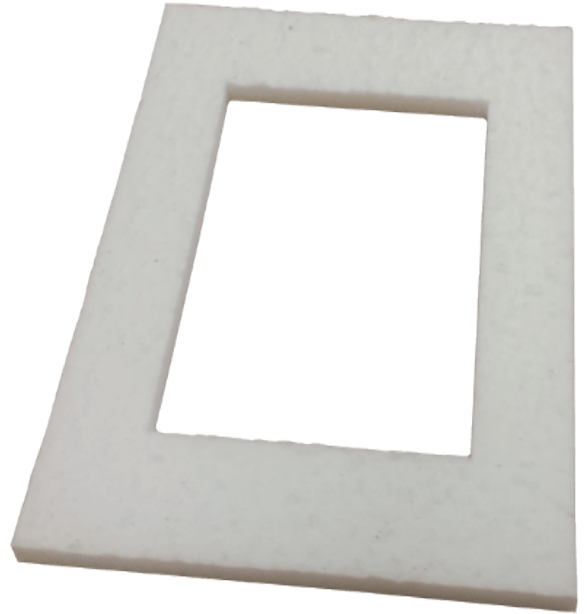

Custom Heat Insulation Solutions

Offers very high temperature resistance, low thermal conductivity, low heat storage and excellent compression recovery.

Often used for high temperature gaskets, furnace door seals, as well as thermal and electrical insulation applications that call for a thinner material.

Lytherm Ceramic Insulation Paper is able to withstand continuous exposure to temperatures up to 1,260°C and is lightweight with strong chemical resistance.
