

# Oil Jointing Gasket Paper

Our Oil Jointing is a very economical type of gasket paper used for everyday gasket making.

This grade is not designed for high temperatures, high pressures or aggressive media but can be a viable option for some applications.

It is made from a combination of protein bonded cellulose fibres.

Oil Jointing is available in a selection of thicknesses and comes on rolls so it can be supplied by the metre.

Using our full range of gasket cutting facilities, Associated Gaskets is also pleased to offer all kinds of custom gaskets made from our Oil Jointing material. Common applications include automotive gaskets and low pressure flange connections.

Key Specifications	
Temperature	120°C
Thickness Tolerance	±10%
Compression	25% - 40%
Recovery	40% min.
Tensile Strength	13.79 Mn/m <sup>2</sup>

Standrd Sizes						
Thickness Metric	Thickness Imperial	Roll Width		Thickness Metric	Thickness Imperial	Roll Width
0.15mm	0.006"	940mm		1.2mm	0.050"	1016mm
0.25mm	0.010"	940mm		1.6mm	0.062"	1016mm
0.38mm	0.015"	1016mm		2mm	0.080"	1016mm
0.5mm	0.020"	1016mm		2.4mm	0.100"	1016mm
0.8mm	0.032"	1016mm		3.2mm	0.125"	1016mm
1mm	0.040"	1016mm
