Radox 4GKW-AX Traction Cable is a 1.8 / 3kV halogen free, dual wall power cable used in demanding applications.

Physically tough, Radox 4GKW-AX Traction Cable is compact and flexible. This single core cable is designed to carry maximum voltage at minimum weight and diameter.

Radox 4GKW-AX Traction Cables are also flame retardant, low smoke and have a low toxicity index.

Radox Traction Cables are used for permanently protected installations inside and outside of rolling stock to connect fixed and moving parts in both DC and AC equipment. They are particularly suited for inverted technology applications.
