

Weicon Aluminium Repair Stick

Specifically designed for making non-rusting repairs and bonding metal parts.

It is particularly suited for use with aluminium, though it can be used on a range of other materials as well.

Designed for repair applications, Weicon Repair Stick Aluminium is often used for making repairs to car bodies, transmission casings and window frames as well as in a wide variety of marine and model making applications.

Weicon Repair Stick Aluminium is aluminium-grey in colour and cures in temperatures between 6°C and 40°C.

They are used to cover gaps up to 15mm (maximum) and, once fully cured, resist temperatures ranging from -50°C to 120°C.

Key Specifications	
Colour	Grey
Density	1.6 g/cm ³
Pot Life	4 Minutes
35% Cure	10 Minutes
Full Cure	24 Hours
Shore Hardness	75 Shore D
Temperature Resistance	-50°C to +120°C
Avg. Tensile Shear Strength	4.2 N/mm ² on Sand Blasted Aluminium

Standard Sizes	
57gm	115gm
