Weicon Electro Contact Cleaner is a highly effective cleaner and degreaser used on all kinds of electrical contacts.

Fast and efficient, this easy to use product removes oxide and sulphide layers, combustion residues and resinous or sooty deposits from parts. It effectively reduces voltage loss and increases electrical conductivity.

Made from high purity solvents, our Electro Contact Cleaner is often used on measuring instruments, balancers, switches, sensors as well as all kinds of electrical machines, connections, contacts and relays.

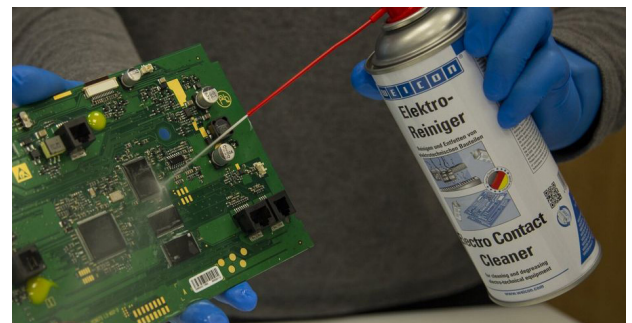

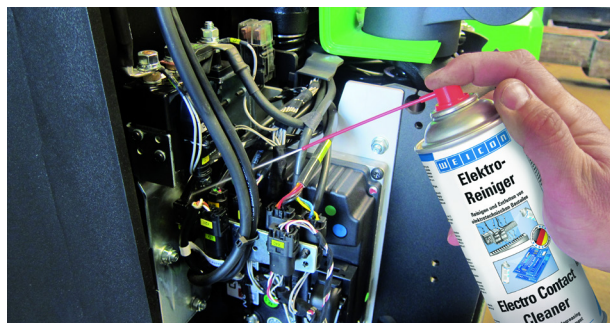

Key Specifications

Colour	Transparent
Smell	Solvent

Standard Sizes

400ml Aerosol	10 Litre Container
5 Litre Container	28 Litre Container
