A maintenance and care agent with good adhering properties for all moving parts on windows, doors, gates and many more.

Due to its special water repellent properties, this grade of spray reduces friction and wear on moving joints and suppresses squeaking noises.

It effectively penetrates into tight crevices in objects and remains adhered to reduce friction over its long service life.

It is resistant to weathering, loosens dirt and protects surfaces from corrosion.

Uses for Weicon Fitting Spray include...

- Fittings on windows, doors, gates and garages
- Tilt and turn shear fittings
- Hinges and locking systems

Key Specifications	
Colour	Colourless
