Primer M 100 is used in conjunction with Weicon Urethane and MS Polymer based adhesive sealants.

Designed for application to non-absorbent surfaces such as glass, metal or some types of plastic; this powerful priming agent increases bond strength and adhesion.

M 100 Primer is used on metals such as aluminium, steel, stainless steel, brass, copper, zinc, tinfoil, plastics such as ABS, rigid PVC, PA 6.6, FRP, SMC, PUR and lacquered surfaces, enamel, ceramic, and glass.

It is specifically designed for use with Weicon brand adhesives, it may work with other but this has not been tested. Weicon M 100 Primer is not designed for use with silicone adhesive sealants.
