

Weiconlock AN 305-77

Weiconlock Threadlockers & Instant Gaskets

Cleaners and Surface Preparation

MS Polymer Adhesives & Sealants

Gasket & Sealing Tapes

Weiconlock AN 305-77 is a high quality grade of anaerobic adhesive designed specifically for pipe and thread sealing applications.

Weiconlock AN 305-77 boasts the added benefit of being BAM approved for use in oxygen sealing installations and both DVGW and AGA (Australian Gas Association) approved for use in gas line sealing.

This permanent sealing adhesive is designed for larger threaded joints or pipes up to M 80 (R3").

It has a high viscosity for accurate application and cures with a medium amount of strength which means that connections can be disassembled with the aid of normal tools.

Key Specifications	
Colour	Yellow
Threads Up To	M 80
Viscosity	24,000 - 70,000 mPa·s
Breakaway Strength (Thread)	18 - 22 Nm
Shear Strength	6 - 13 N/mm ²
Handling Strength	15 - 30 Minutes
Temp. Resistance	-60°C to +150°C

Standard Sizes

- 50ml
- 200ml
- 300ml
