# Weicon Activating Cleaner Spray

Weicon Activating Cleaner Spray was specially developed for the cleaning and pre-treatment of non-absorbent surfaces such as stainless steel, glass and plastic, prior to bonding. This transparent spray does not only clean, but it also serves as a surface primer to improve the adhesive force of the applied adhesive. Weicon Activating Cleaner has a short flash-off time and can be applied quickly and easily making it ideal for emergency repairs and time sensitive projects.

### Technical Data:

Property:	Typical Value:
Base	Solvent Mixture with Additives
Colour	Transparent
Texture	Liquid
Evaporation Time	Approx 10 mins
Density	0.7 g/ml, 20°C, DIN 51757
Processing Temperature	5°C to 25°C
Consumption	20 – 60ml/m <sup>2</sup>
Building Material Class	B2, DIN 4102

### Surface Pre-Treatment:

Apply the activating cleaner generously from a distance of 200mm then wipe the surface with a lint-free cloth in one direction. Bonding can commence after 20 minutes but should be completed before 6 hours. Compatibility testing is recommended prior to application.

### Availability:

Weicon Activating Cleaner is available in 400ml aerosol cans. Other grades of Weicon cleaners and activators are also available.

Associated Gaskets stock a large range workshop consumables as well as thermal insulation, gaskets materials and specialised electrical products. For more information on these products and many more, please visit our website or call your nearest AG branch.
