

TECHNICAL LIQUIDS

Weicon Cleaner S Fluid

Weicon Cleaner S cleans and degreases all metal, glass, ceramic and most plastic surfaces. This high powered cleaner effectively removes and degreases heavily soiled surfaces and evaporates without leaving behind any residues. One downside of its high powered nature, Cleaner S should not be used on thermoplasts (e.g. PVC, polystyrene) or simple paint coatings as it may damage the surface.

Cleaner S is typically used for cleaning heavily soiled, greasy or oily surfaces and is ideal for preparing these types of surfaces before for bonding or sealing.

Properties

Colour	Clear
Odour	Orange
Temperature Resistance	---
Minimum Shelf Life	24 Months

Compatible With

Weicon WSD 400
Pressurised air Dispenser

Weicon WPS 1500
Pump Dispenser

Processing

Dip the part to be cleaned into the Cleaner S Fluid or, alternatively, brush or spray Cleaner S onto the part. If necessary, wipe off with a clean cloth or non-woven fabric while making sure that impurities are removed. Repeat process as required and allow time for the cleaner residue to evaporate after use.

Storage

Containers of Weicon Cleaner S should be stored in their closed, original container away from direct solar radiation and not exposed to temperatures exceeding 50°C. Minimum shelf life is 24 months.

Availability

Weicon Cleaner S Fluid is available in 5L, 10L or 30L containers as standard.
