

## TECHNICAL SPRAYS

# Weicon Cockpit Spray

Weicon Cockpit Spray is a water-repellent cleaning agent in easy to use spray form. This high quality spray is typically used on plastics or rubbers and creates a long-lasting, invisible, protective film that prevents the materials from soiling and creates an easy to maintain, dust resistant, silky, shiny surface.

This incredibly versatile spray also boasts a number of other functions that has led to its use in a variety of areas. Examples include the elimination of squeaks and creaking noises, preventing the freezing of door, window and boot seals and acting as a lubricant of safety belts, skylights, window guides, locks and other areas where grease causes soiling. Cockpit spray refreshes dull and weathered plastic, stops rubber from becoming brittle by maintaining its elasticity and protects leather, wood, chromium and other surfaces.

### Properties

Colour	Colourless
Odour	Citrus
Temperature Resistance	---
Minimum Shelf Life	24 Months

### Preparation of the Surface

No special surface pre-treatment is required when using Cockpit Spray.

### Processing

Shake can before use. Weicon Cockpit Spray should be sprayed on sparingly and immediately wiped with a clean, dry cloth.

### Storage

Cans of Weicon Cockpit Spray should be stored away from direct sunlight and not exposed to temperatures exceeding 50°C. Minimum shelf life is 24 months.

### Availability

Weicon Cockpit Spray is available in 400ml aerosol cans.
