

## Weicon Sealant and Adhesive Remover Fluid

Weicon Sealant and Adhesive Remover is a fast acting cleaner that effectively dissolves and eliminates sealants and hardened adhesive residues as well as lacquers and paints. This fluid can be used on metal, wood, glass, ceramic, polyethylene and polypropylene and, thanks to its fast acting nature, can even be used on vertical surfaces.

Weicon Sealant and Adhesive Remover is typically used for dissolving sealant residues from cylinder heads, oil pans, water pumps, exhaust manifolds, valve covers and gear flanges and is also used for removing carbon residues, paints and lacquers. It is also used as a paint remover in wood restoration work and for removing all kinds of hardened adhesives including cyanoacrylate and anaerobically hardened adhesives.

### Properties

Colour	Milky
Odour	Solvent
Temperature Resistance	---
Minimum Shelf Life	24 Months

### Processing

Apply a sufficient quantity of Sealant and Adhesive Remover onto the parts being cleaned. If necessary, wipe off with a clean cloth. Repeat this process as required for heavily soiled parts and surfaces.

### Storage

Containers of Weicon Sealant and Adhesive Remover Fluid should be stored in their closed, original container away from direct solar radiation and not exposed to temperatures exceeding 50°C. Minimum shelf life is 24 months.

### Availability

Weicon Sealant and Adhesive Remover Fluid is available in 5L, 10L or 30L containers as standard.
