

TECHNICAL SPRAYS

Weicon Visor Cleaner Spray

Weicon Visor Cleaner Spray has been specially developed for the cleaning and care of sensitive plastic and glass surfaces. It is particularly effective in cleaning visors, safety goggles, welding face shields, protection caps, safety glass as well as the plastic housings on machinery and electrical devices (such as printers or scanners).

Visor Cleaner Spray effectively cleans these surfaces and removes impurities caused by insects, dirt, dust, grease or other contaminants. It leaves behind no residue but does create an anti-static, anti-reflective surface that reduces dazzling and improves visibility.

Properties

Colour	White
Odour	Almost Odourless
Temperature Resistance	---
Minimum Shelf Life	24 Months

Preparation of the Surface

If using Visor Cleaner on part of an electrical device, ensure that the device is fully powered off, has cooled down and been removed from mains power prior to use.

Processing

Shake can before use. Spray Visor Cleaner onto the surface being cleaned and allow it to react for approximately 20 seconds before wiping it off. For sensitive surfaces or electrical appliances spray Visor Cleaner onto a soft, lint-free cloth and clean the surface with light pressure. Repeat process if necessary. Ensure that the material does not penetrate into the inner parts of electrical appliances.

Storage

Cans of Weicon Visor Cleaner Spray should be stored away from direct sunlight and not exposed to temperatures exceeding 50°C. Minimum shelf life is 24 months.

Availability

Weicon Visor Cleaner Spray is available in 200ml aerosol cans.
