### Processing

Apply Workshop Cleaner generously to the parts/surfaces that are being cleaned, allow it to soak in and wipe off with a clean cloth. Repeat this action if dealing with stubborn stains. The cleaning process can be shortened by warming the product (up to a maximum of 90°C). Particularly coarse dirt can also be removed more simply this way.

Do not apply undiluted to aluminium or zinc coatings (alkaline, concentrated pH value of approximately 12).

### Storage

Containers of Weicon Workshop Cleaner should be stored in their closed, original container away from direct solar radiation and not exposed to temperatures exceeding 50°C. Minimum shelf life is 24 months.

### Availability

Weicon Workshop Cleaner is available in 500ml, 5L, 10L or 30L containers as standard.
