Weicon All-Round Sealing Spray

All-Round Sealing Spray is a remarkably versatile and effective solution for sealing up pitted metal, small leaks, fine cracks and seams. It is a sprayable plastic that sets hard and bonds to most materials. This spray-on sealant can be used in many different industries for construction, manufacture and repair work.

Available in three different colours, Weicon All-Round Sealing Spray is based on a styrene butadiene rubber (SBR) and is very easy to use. Simply spray a sufficient quantity onto the surface and allow a little time for it to react. Repeat the process as necessary to achieve a good coverage and reliable seal.

Once it's dry, Weicon All-Round Sealing Spray can be painted over. It will withstand temperatures between -50°C and +100°C once it's fully cured. It is also waterproof and weather resistant. It protects metal against corrosion and is free of bitumen and silicone.

All-Round Sealing Spray can be used indoors or outdoors. This spray on sealing spray sticks well to most surfaces including stone, metal, wood, enamel and many plastics.

Applications for Weicon All-Round Sealing Spray

- Pitted gutters, sewage and drainage pipes.
- Caravans and mobile homes.
- Boats.
- Roofs and windows.
- Pool walls.
- Pond liners.
- Cell and ventilation shafts.

Properties

Colours	Black, White or Grey
Smell	Solvent
Composition	Styrene Butadiene Rubber
Over Paintable After	20 Minutes (approx.)
Temperature Resistance	-50°C to +100°C
Cure Time	2-4 Hours
Minimum Shelf Life	24 Months
